C8.5	Comments on method of assessing SHQS compliance.	•

Stock condition surveys are carried out every three years using different samples each time using an independent company Brown and Wallace. Prior to the Covid-19 pandemic, property services staff continually assessed the stock through property inspections where each property was inspected every two years. These inspections have resumed during 2023. We carry out weekly estate management inspections and pre and post inspections for repairs. Planned maintenance programmes allow for further inspections to take place. The LCC information is reviewed every quarter with Gardeen staff and the Finance and Maintenance Consultants to highlight any requirements to amend the programme. The Maintenance Consultant, Tom Atkinson, also verifies the LCC information. Stock condition surveys were also carried out in 2006, 2009, 2012, 2015 and 2018. The Association has allowed for adequate resources to ensure that stock condition information is reviewed and updated on a regular basis.
