

Business Plan 2020-2023

The Management Committee have approved a new Business Plan that sets out the mission and values along with our objectives, plans and resources for the period 2020-2023.

A summary of the Business Plan

Gardeen operates in the Barlanark neighbourhood in Greater Easterhouse.

- Gardeen owns and manages 253 homes for social rent, as well as factoring 17 properties in private ownership.
- We are a significant social business, with an annual cash turnover approaching £1 million.
- We are led by an experienced and strongly committed Management Committee, made up of local residents who volunteer for the benefit of the community
- Gardeen employs 6 members of staff, led by our Director who is responsible for the day to day management of the Association.

Gardeen provides a comprehensive range of services, all of which are focused 100% on the needs of our tenants and community. These services include tenancy and neighbourhood management, repairs and property management, asset management and investment in tenants' homes, environmental works, income maximisation and factoring.

Gardeen was established in 1991 when a group of local residents association formed a housing association, to tackle the poor housing, social and environmental conditions in the area.

At that time, tenants in our area lived in cold and damp houses that were of a very poor standard. Many tenants had left the area because of its decline, and there were serious issues with antisocial behaviour and criminality.

With support from government, Gardeen took ownership and control of the houses in the area from Glasgow City Council. We then carried out a comprehensive programme of housing renewal, providing a mix of new and improved homes.

We also introduced local control over housing and neighbourhood services. A commitment to finding local solutions to problems has been at the heart of our approach from the outset.

Today, Gardeen's area is a very different place, offering:

- Decent and affordable homes
- A stable community where people choose to live
- Excellent housing and maintenance services
- An environment that is clean and well cared for
