C8.2	What percentage of stock did your organisation fully assess for compliance in the last five years?	61.00

Stock condition surveys are undertaken every three years using different samples each time. Property services staff continually assess the stock through property inspections where each property is inspected every two years, weekly estate management inspections and pre and post inspections. Planned maintenance programmes allow for further inspections to take place. The LCC information is reviewed every quarter with Gardeen staff and the Finance and Maintenance Consultants to highlight any failures or requirements to amend the programme. The Maintenance Consultant, Tom Atkinson, also verifies the LCC information. Stock condition surveys were also carried out in 2006, 2009, 2012 and 2015. The Association has allowed for adequate resources to ensure that stock condition information is reviewed and updated on a regular basis.
