

Stay at home guidance

Stop the spread of coronavirus

- **Plan ahead** and ask your employer, friends and family to ensure that you can successfully stay at home.
- **Stay at least 2 metres** (about 3 steps) away from other people in your home whenever possible.
- **Use separate facilities** in your home as much as possible. Sleep alone and use a separate bathroom, if available.
- Have food, medication and other **supplies delivered to you**.
- **Do not share** cups, eating utensils, towels, bedding or other items with other people in your home.
- **All waste**, including used tissues, should be put in a rubbish bag and then placed in a second bin bag and tied.
- **Stay away from vulnerable individuals** such as the elderly and those with underlying health conditions as much as possible.
- **Do not have visitors** in your home.

CORONAVIRUS

**PROTECT
YOURSELF
OTHERS &
THE NHS**

Wash your hands more often and for 20 seconds

Use soap and water or a hand sanitiser when you:

- Get home or into work
- Blow your nos, sneeze or cough
- Eat or handle food

Cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze and throw the tissue away straight away.
